

2022 Summer Program Weekly Themes

Note: activities listed below will be modified, as appropriate, for our primary learners

An Artist's Life:

Children will embark a journey through time, as they learn about just a few of the most inspirational and masterful artists who have shaped our world today. Children will draw, paint, craft ceramics, and design pieces of artistic pride.

STEM I

Calling all scientists and engineers! Does your child have an insatiable curiosity about how the world works? Your child will delve into the world of mechanics, electrical engineering, and robotic fun as they navigate through the steps of the design process.

Sports I

Children will immerse themselves in a variety of sports such as basketball, gymnastics, flag football, and martial arts. They'll grow in important life and social skills such as teamwork and collaboration, along the way.

Theater I

Let your light shine! Children will dance and sing to fun songs from Broadway musicals such as 'Coco' and 'Aladdin'. They'll learn improvisational skills, create their own skits and plays, build camaraderie amongst friends. The week will end in a cumulative theatrical performance, and parents are welcome to attend.

Games Galore

Let's play games! Children will gain skills in problem solving, perseverance, and critical thinking as they play, create and code their own jigsaw puzzles, board games, and animated adventures. They'll gain an understanding of how games work in both the physical and digital worlds.

Around the World

Get your passports ready! We're taking an imaginative and fun-filled trip across the earth, exploring languages, games, sports, songs, dances, and art. Children will continue to develop their global mindset as they gain valuable insight and greater understanding of cultures around the world.

STEM II

Calling all scientists and engineers- round two! Does your child have an insatiable curiosity about how the world works? Your child will delve into the world of mechanics, electrical engineering, and robotic fun as they navigate through the steps of the design process.

Sports II

Children will immerse themselves in a variety of sports such as basketball, gymnastics, flag football, and martial arts. They'll grow in important life and social skills such as teamwork and collaboration, along the way.

Theater II

Come and let your light shine— even brighter this time! Children will continue to act, dance and sing to fun songs from Broadway musicals and theatrical plays. They'll learn improvisational skills, create their own skits and plays, build camaraderie amongst friends. The week will end in a cumulative performance, and parents are welcome to attend.

Reading and Math Boot Camp

It's time to get in tip-top mental shape to go back to school! Children will focus on core math, reading and writing skills to ensure they have the tools they need for a successful start to the school year.

An Animal's Life

Animals alive! Our younger learners will celebrate their favorite animals through art, song, and play. Children will use their imagination to adventure to the zoo, embark on a wild safari, and meet playful aquatic animals.
